SUMMARY

Data Analyst | BI Specialist | Computer Vision Specialist with expertise in Python, SQL, Microsoft Power BI (PL-300 Certified), Machine Learning, and Computer Vision. Skilled in analyzing complex datasets, building interactive dashboards, and developing AI-powered vision applications to deliver actionable insights and support data-driven business decisions.

EXPERIENCE

Applied AI & Data Analytics | Digilians (MCIT & Egyptian Military Academy) Dec 2025 – Present

- Intensive diploma focused on Applied Artificial Intelligence and Data Analytics.
- Analyzing large datasets using Python and SQL to extract meaningful insights.
- Developing predictive models using Machine Learning and Deep Learning techniques.
- Designing interactive Power BI dashboards to monitor KPIs and communicate insights effectively.
- Applying statistical methods to solve real-world analytical and business problems.

Customs Clearance Coordinator | Egy Trade 2022 – 2025

- Managed large volumes of operational and customs data related to vehicle import processes.
- Conducted data cleaning, validation, and auditing to maintain high levels of data accuracy and compliance.
- Utilized Excel for data analysis, reporting, and tracking shipment clearance performance.
- Identified process inefficiencies and operational bottlenecks through data-driven analysis, contributing to improved workflow efficiency.

Founder & Operations Manager | Small Business (Apparel Retail) 2021 – 2023

- Established and managed an apparel retail business, utilizing data-driven strategies to optimize daily operations and sales.
- Tracked and analyzed sales data and inventory levels to identify top-performing products and understand customer preferences.
- Leveraged data insights to make informed purchasing and pricing decisions, reducing dead stock and maximizing profitability.

TECHNICAL SKILLS

- **Programming & Databases:** Python, SQL.
 - **Data Visualization & BI:** Power BI, Tableau, Microsoft Excel.
 - **Machine Learning & AI:** Machine Learning (Prediction, Classification, Segmentation), Deep Learning, Data Mining.
 - **Data Analysis & Statistics:** Statistical Analysis, Applied Statistics, SPSS.
 - **Cloud & Tools:** Microsoft Azure (Fundamentals).
 - **Soft Skills:** Analytical Thinking, Problem Solving, Business Acumen, Communication.
-

CERTIFICATIONS

- **Specialized Diploma in Applied AI & Data Analytics | MCIT & Egyptian Military Academy (In Progress)**
 - **Microsoft Certified: Power BI Data Analyst Associate (PL-300) | Microsoft (Jul 2026)**
 - **Machine Learning Specialization | DeepLearning.AI & Stanford University | Coursera (May 2026)**
 - **Google Advanced Data Analytics Professional Certificate | Coursera (Dec 2025)**
 - **Data Analysis with Excel Power Tools | DataCamp (Dec 2025)**
 - **Associate Data Analyst in SQL | DataCamp (Aug 2025)**
-

LANGUAGES

- **Arabic:** Native.
 - **English:** B2
-

EDUCATION

- **Bachelor of Social Work | Higher Institute of Social Work, Port Said (2022).**
